Yarn Yardage Chart by Brand

Grams, yards and meters for 243 yarns, as listed by the brand or retailer. Last checked: November 4, 2026.

Printed numbers are shown as printed. Numbers marked with ≈ were converted because the source printed only the other unit: yards and meters (1 yard = 0.9144 meters), or ounces to grams (1 ounce = 28.3495 grams). A blank grams cell means the source didn't print a weight. Each row links to its source.

Lace weight

Brand	Line	Grams	Yards	Meters	Fiber	Source
DROPS	Kid Silk	25	*≈230*	210	75% Goat - Mohair, 25% Silk	garnstudio.com
